**AVALON WORKS WINS ADDITIONAL \$5 MILLION
GOVERNMENT ONLINE CONTRACT - GOL**

November 9th, 2001, Ottawa Ontario – Avalon Works Inc. ("AvalonWorks" or "the Company") (CDNX:AWB) announced today that its e-Business Facilitation group has been awarded an additional \$5M Supply Arrangement (standing offer) contract with the Government of Canada for Government Online projects. This three-year contract covers various information technology related services including Web development and e-Business/e-Commerce services. Based upon Government estimates, this contract could create 80 new jobs in the Company's e-Services Group over the life of the contract.

"*This is a great win,*" said Jirka Danek, Managing Partner of the AvalonWorks. "Our WebWorks involvement with the development of the Canada Site www.canada.gc.ca, the Canadians Gateway <http://www.canadians-canadiens.gc.ca/> as well as the Canada Post <http://www.canadapost.com/> portals are a clear testimonial in our leadership position in the area of Web development and web application enablement. Our IT Works involvement with the technology architecture, engineering and ongoing support of the GTIS ESD 7*24*Always Hosting Centre further demonstrates our unique expertise in building secured, scalable and reliable Internet Data Centres. Our government clients recognize that this broad level of expertise gives them a real advantage when it comes to delivering complete and reliable solutions for Government On Line programs."

Avalon Works Corp

Avalon Works is a national full-service ASP comprised of four divisions: Web Works, IT Works, SP Works, and Telco Works. We provide end to end solutions and offer expertise that encompasses the strategic, technical and creative disciplines required to define, implement and support e-Business solutions.

Avalon Works has been a successful e-business enabler since 1995. Our Web Works and IT Works organizations offer expertise over the full range of web site and web application development. Our SP Works organization offers ASP expertise that includes the Avalon Works support organization consisting of technical specialists who operate and manage the largest suite of cross platform (UNIX and NT) environments in the Federal Government in addition to its three Internet Data Centres. Our Telco Works provides the complete suite of Telecom products & services. Additional information is available at <http://www.avalonworks.com/>. For further information:
